PROFITEERING IN FIREWOOD

VIENNA'S FORESTS LOOTED BY THOSE WHO WOULD PROFIT ON THE MISERY OF OTHERS

By the Associated Press
VIENNA, Feb. 1.—The authorities recently authorized the population to cut and take from the municipal forests that surround Vienna as much wood as could be borne on the back three times weekly. The plan was meant to meet the pressing need of people who could not buy or obtain from the public ration enough fuel to cook with.

A fortnight's experiment showed, that, with the complete destruction of one superb forest park of 150 acres, only a fraction of the wood went as intended, while organized bands of profiteers cut and sold 20,000,000 crowns' worth.

The incident is typical of profiteering conditions in this capital. The papers daily report the frustrated or successful smuggling in and out of the country of contraband articles and commodities. A band of Spanish smugglers recently were caught on the southern frontier with large quantities of gold, silver and platinum which they were trying to take out in automobiles. The exchange value of the Austrian crown makes smuggling a tempting game and men take desperate chances. The frontiers are guarded closely and every one searched, but the left hand trade is unchecked.

Money can still buy any necessity or any luxury here. While the mass of the people are hungry and old and ill-clad, the splendid hotels and restaurants continue so crowded that it is impossible to be served unless a reservation is made for a table. In crowds the prices are fabulous. A simple meal costs the monthly salary of an office man, yet profiteers and alien speculators throng them as well as the cabarets and night amusement places of all kinds.

On the one hand is luxury and reckless spending and on the other starvation. The swarms of street beggars increased, men women and children with their insistent appeals. The cheaper coffee houses are filled.

Churchill Says That Something Bad is Due From Russia

By the Associated Press
SUNDERLAND Eng. Feb. 1.—Winston Churchill, British Secretary of State for War, declared in an address he delivered here that while no one can tell what will emerge from Russia "it will be something very menacing to civilization and especially dangerous to the British Empire."

"Bolshevik fanatics are determined to destroy civilization, democratic parliaments, and the liberties of free peoples," declared the Minister. "Europe and Asia are in a desperate condition. The Allies may abandon Russia but Russia will not abandon them. The ghost of the bear will cross the snows and menace them."

"New forces are springing up in Asia Minor, and if Russian Bolshevism and Turkish Mahometanism should join hands the situation for Great Britain would be grave. Koltchak and Denikine have protected British interests in the past, but the armies of Koltchak are almost gone, the armies of Denikine are in jeopardy and if they were to disappear serious danger would immediately arise.

"It is possible that there may be a combination between Kaiserism and German Bolshevism to destroy the German republic. We must see that does not happen. We are continually being told that we should not trade with Germany, but how are we to get our necessities unless we trade with her? France and America are taking all steps to trade with Germany, and we should not be called on to stand aside."

FRANCIS DEFEATS TISHOMINGO A. & M.

Last Saturday Francis basketball team defeated Tishomingo by a score of 44 to 11. The game was much more interesting than the score would indicate. The Tishomingo quintet are certainly very active and accurate goal shooters and showed a good spirit throughout the game. Much credit is due the Francis centers and those girls are certainly going good and are really expecting to defeat the, as yet, undefeated girls of Wewoka at Francis February 27th.

DEATH RATE IN U. S. INCREASES

FLUE GETS CREDIT FOR MOST OF IT, YET HEART TROUBLE FROM J. B. GETS SOME CREDIT

By the Associated Press
WASHINGTON, Feb. 2.—The death rate in the United States for 1918 was the highest on record according to the census bureau annual mortality statistics, issued today, which shows 1,471,367 deaths for the year representing a total of 18 per cent for every 1000 population.

Of the total 477,467 or over 32 percent were due to influenza and pneumonia, 38,996 deaths having occurred in the last four months of the year when an epidemic of these disease prevailed.

The other principal causes of deaths were organic disease of the heart, tuberculosis, acute nephritis, brights disease and cancer which together were responsible for 391,391 deaths or nearly 27 per cent of the total during the year.

More Cotton This Year Than Last At Time of Year

A. W. McKeel, special agent, makes a report today that should make Ada and Pontotoc county feel good from the standpoint of cotton.

Mr. McKeel informs us that there were 24,241 bales of cotton, counting round as half bales, ginned in Pontotoc county from the crop of 1919 prior to Jan. 16, 1920, as compared with 13,530 bales ginned to Jan. 16, 1919.

It has been known all the way through that the cotton crop for this year was phenomenal, but it was not realized that the gain over last year was so great until the report came in from Mr. McKeel this week.

As a matter of fact, the wet weather of the fall months so retarded cotton picking that it is estimated that even yet a fifth of the crop is in the fields. If this proves to be correct the crop of this year will certainly prove a record breaker.

Heap Money Paid To Police Judge For Past Month

The report of Mayor Kitchens as police judge for January shows that the police court is still a good revenue producer for the city in spite of compulsory education and the passing of J. Barleycorn. During the month just passed the mayor collected \$434.75 in cash as fines for various delinquencies, such as drunk, speeding, etc. Stay-bonds to the amount of about \$175.00 are also on file.

Convicts Begin Building Some Real Highways

The entire force of state convicts contracted for by the county commissioners have now arrived and begun work on a part of the force have begun work building the road at the Egypt bridge. The crossing will be strongly ballasted with stone, and it is the intention of the road builders to construct a crossing at this place that will be permanent and that will not need any attention in the future.

The rest of the convicts will be employed grading the road from Ada to the Byng bridge. Both operations will be carried on simultaneously and the crews will be kept in the stockade at the fairgrounds. Commissioner Laughlin left for Oklahoma City this afternoon to secure two more army trucks furnished by the war department to be employed in road construction. With several trucks and fifty convicts employed on the highways Pontotoc County will have some of the best roads in the state before the summer is ended. The commissioners are to be heartily commended for beginning some real work on the roads after many years of talk by the public generally.

Mrs. Myrtle Roberts of Bebee was released from the local hospital yesterday.

THE OL' TIMERS 'VE GOT AN AWFUL GROUCH ON 'CAUSE THEY CAN'T REMEMBER A WORSE WINTER, AN' THEY HAIN'T GOT NOthin' ELSE WORTH WHILE TO ARGUE 'BOUT

FARMERS OPPOSE SLAVING FOR US

CAN'T SEE WHY THEY SHOULD WORK DAY AND NIGHT AND OTHERS TAKE THINGS EASY

By the Associated Press
SYRACUSE, N. Y., Feb. 2.—Those who are best informed on agricultural conditions in America cannot offer the slightest hope of lower food prices so far as the farmer is concerned, according to a statement of Sherman J. Lowell, master of the National Grange, made public last night.

The statement after declaring that it was the belief of the farmers of the country that the only way to reduce the high cost of living was for everybody to do a "reasonable days work," and adds:

"This is the declaration of the National Grange which sets in the future no reason why its members should slave long hours, seven days a week, to supply cheap food to the other workers of the country who enjoy short hours and unlimited opportunities for rest and pleasure."

Petitions for Paving are Filed With Officials

Petitions have been filed with the city commissioners asking for more paving in Ada. One petition is filed by citizens and property holders along Townsend Avenue asking for the paving of that thoroughfare from 12th Street South to 20th Street. The people along East 2nd ask that that street be paved from Broadway east to the city limits.

It is stated that petitions for paving 17th Street from Rennie to Johnson is about ready to be filed. Another petition to have East 10th paved is also said to be ready for presentation to the commissioners.

R. E. Hendon of Earlsboro is in Ada today on a business mission. He is anxious to move to Ada to get the benefit of the schools for his little girls and is seeking either a city residence or a small farm near the city. Mr. Hendon is a former member of the legislature and one of the best known men of Pott county.

LAST MINUTE NEWS

Callahan Renominated.
By the Associated Press
WASHINGTON, Feb. 2.—James Y. Callahan was renominated today as register of the land office at Guthrie, Oklahoma.

A Bolshevik Uprising.
LONDON, Feb. 2.—A Bolshevik uprising is reported to have occurred at the Tiflis and Kutais in Transcaucasia. Both cities are declared to be in the hands of the reds.

Austrian is Executed.
PARIS, Feb. 2.—Lieut. Fancq, an Austrian who during the war was employed in a bank here, and reported to the Germans the point at which the shells of their long range cannons fell, was executed today.

Estonian-Soviet Peace.
LONDON, Feb. 2.—Peace was definitely concluded this morning between the Russian Soviet government and Estonia. It was announced in a wireless dispatch from Moscow this afternoon.

Texas Pool Halls in Toils.
WASHINGTON, Feb. 2.—The supreme court today denied a motion made on behalf of various owners of pool and billiard rooms in Texas to enjoin temporarily state officials from enforcing the state act of 1919 prohibiting the operation of such places pending final determination by the court of appeals, involving the validity of the statute. Lower courts held the act constitutional.

Reds Are Found Guilty.
TACOMA, Wash., Feb. 2.—A jury trying 36 alleged I. W. W. on a charge of criminal syndicalism returned a verdict of guilty today after being out 58 hours.

In the recommendations returned by the court exercise as much clemency as possible, as it was the organization rather than the individuals which had been in trial.

Bolshevik Centralized.
WARSAW, Feb. 1.—Centralization of a large number of Bolshevik troops north of the Dvina River has been presented by attacks by Polish units, according to an official statement.

Attempts to gather Bolshevik forces along the fronts in White Russia and Lithuania are believed by military authorities to be part of the soviet government's preparation for a spring attack against Warsaw. Newspapers here say the red offensive against Poland will be begun as soon as possible.

WEATHER FORECAST

Cloudy and much colder tonight and Tuesday. Freezing temperature or lower.

SPIKER BABY TO STAY IN FAMILY

BROTHER WILL MARRY WAR FIANCEE OF AVIATOR AND RAISE THE BABY OF HIS BROTHER.

By the Associated Press
NEW YORK, Feb. 2.—Mrs. Cora M. Spiker of Baltimore went to Ellis Island to complete formalities for the admission to this country of Miss Emily Knowles, the English war worker who was detained with her baby on the way to join Mrs. Spiker and her husband, Lieut. Perley R. Spiker, whom she met at a camp in England while he was an aviator in training and she was a member of the women's auxiliary service.

Mrs. Spiker, who was accompanied by her lawyer and Gus R. Spiker, brother of the Lieutenant, who has offered to marry Miss Knowles. They took a \$1,000 Liberty bond to the island to deposit as required by the department of labor for the admission of Miss Knowles and her baby to the country for three months in care of Mr. and Mrs. William K. Battersby of Fall River, Mass.

Funeral of Mrs. Morris.
The funeral services of Mrs. L. M. Morris of Allen, who died Saturday morning at the hospital at Henryetta, were held at Rosedale cemetery yesterday afternoon in the presence of a large number of the friends of the stricken family.

The religious exercises were conducted by Dr. A. L. Odell of the Presbyterian Church, of which Mrs. Morris was a devoted member. Dr. Odell delivered a brief address of great eloquence, after which the Ada Chapter of the Eastern Star rendered the beautiful burial rite of the order.

Mrs. Morris was a native of London, England, being born November 27, 1872. At the age of eighteen she came to America and spent the remainder of her life in the United States. She was married to L. M. Morris, now a prominent hardware and furniture dealer at Allen, and leaves surviving her husband, one son, Starr Morris of Allen, and her aged father, Mrs. Morris was one of Pontotoc county's noblest women and her untimely death is a great sorrow to the people among whom she lived.

Corp. Louis Drummond has arrived home from the hospital at Ft. Sam Houston, Texas. The corporal has received his discharge and if necessary the government has provided that he be sent to a private hospital in the future.

SEVERE EARTH QUAKE RECORDED

INSTRUMENT AT GEORGETOWN UNIVERSITY RECORDS WORST SHOCK FOR MANY YEARS

By the Associated Press
WASHINGTON, Feb. 2.—A very severe earthquake shock, lasting more than two hours and centered between 3,300 and 3,800 miles from Washington was recorded early today on the Sympograph at Georgetown University. The shock began at 5:42 A. M., reached its maximum intensity about 8:00 o'clock and ceased at 9:30 o'clock.

CHICAGO, Feb. 2.—The United States Sympograph at the university at Chicago recorded the most pronounced earthquake in months this morning. The shock which continued to 8:45 was heavier than the recent Mexican upheaval. The first shock was at 5:42 o'clock and reached its maximum at 7:40.

High Laws Round Up One Runaway And Some Others

The sheriff's office took possession of Earl Martin this morning and are holding him until his father arrives from Connorsville. The office received a phone call from the lad's father stating that he had run away from home and had come to Ada. The boy had sold his horse to an Ada party just a few minutes before the officers found him. He is sixteen years old.

Henry Martin and Odie Roberts of the Bebee community engaged in a fist encounter yesterday and were in Ada this morning to pay for their pugilistic experience. Martin entered his plea of guilty in Justice Anderson's court and was assessed \$10.00 and costs. Roberts was assessed \$5.00 and costs by Justice Brown.

Mayor Kitchens gave one Driver the regulation assessment in police court this morning. Driver was charged with imbibing too much of the remains of John Barleycorn.

Ladies Welcome Teachers and Pupils to School

The ladies residing in the immediate vicinity of the Hays school showed their appreciation of the new school today by visiting the school building and serving lunches to the teachers and pupils at the noon hour. It was a purely informal affair, but a delightful one nevertheless and the teachers and kiddies highly appreciated the delicious chicken sandwiches and hot chocolate served by the ladies. There was no club or organization back of the thoughtful courtesy—it was just an expression of thanks by the ladies living near the building for the school just opened.

About 350 pupils entered the Hays school today and a number of additional ones are to enter within the next few days. The capacity of the building will soon be exhausted, it is now believed by the school authorities. An additional building is already a pressing necessity and that another one will have to be provided for in the immediate future seems a certainty.

The faculty of the Hays school that began work today is as follows:
Principal—8th Grade Mr. Emerson
7th Grade Miss Beulah Smoots
6th Grade Miss Patton
5th Grade Mrs. Edwards
4th Grade Miss Eunice Billa
3rd Grade Mrs. Luther Harrison
2nd Grade Mrs. F. E. Gray
1st Grade Miss Ida Gray
Miss Grant

At the Liberty

The patrons of the Liberty theater today and Tuesday will see the best picture since "Mickey" came to town. Douglas Fairbanks is at his very best in "His Majesty The American". Liberty going people have come to associate the picture playing orchestra employed by the Liberty as a part of each picture. This picture contains eight reels of comedy, sadness, tragedy, love, happiness and disappointment and is easily the best thing Fairbanks has ever produced and together with the music, the picture interpreting orchestra will produce well be worth the price of admission and the time spent. Showing Matinee and night Monday and Tuesday.

SENATE WILL GET AWAKE NEXT WEEK

INDICATIONS ARE NOW THAT DISCUSSION OF THE PEACE TREATY WILL BEGIN IN THE NEAR FUTURE.

By the Associated Press
WASHINGTON, Feb. 2.—A renewal of senate debate on the peace treaty next week was regarded as virtually assured today when republican leaders decided to join with the democrats in the movement to bring the treaty back into the open senate.

Senator Lodge, the republican leader, planned to give notice today that he would move on next Monday to suspend the rules and proceed to consideration of the treaty. The democrats already had announced that they would make a similar motion Tuesday of next week.

In the form proposed by Senator Lodge, the motion will require a 2-3 majority but the general prediction was that more than that number would support it. Not only those who favor ratification in some form, but some of the treaty's irreconcilable foes are ready to reopen the debate.

Should Senator Lodge's motion fail, however, the movement of the democrats the following day will be in such form that only a majority will be necessary to pass their motion, party leaders assert. The democrats contend that no suspension of the rules would be necessary to take up the treaty and that position is expected to be upheld by Vice President Marshall. On appeal from his decision a majority only would be needed to sustain him.

A SANE SYSTEM.

In these days of tinkering with the social machinery, it is refreshing to learn of one plan for the betterment of our daily life that demands neither revolution nor evolution for the attainment of its objective. Community Service is helping America do for itself in peace what, as War Camp Community Service, it aided in warring. America to do, just as in the war the organization enabled communities to get the greatest value for the men in uniform from their recreational resources, so now it aims to stimulate communities to obtain for all the people the best results from leisure time opportunities. But, there is on great difference between the war work and the peace work—in the great struggle we were building for war and destruction; we are building now for peace and construction.

Community Service is getting together the finest elements in the nation's life—regard for our neighbors, affection for our homes, interest in the place where we dwell—and blending them into a force working, not for our soldiers at war, but for our soldiers come back from the war, for the men and women at home, for everybody in each community. Mothers and fathers, sisters, sweethearts, brothers, can all unite in Community Service with the satisfying knowledge that their endeavors are going to be reflected in better, sweeter, brighter local conditions.

This we take it, will meet with the approval of every American. During the war a new spirit of comradeship was born in city, town and hamlet; a spirit particularly conspicuous in those places uniting through War Camp Community Service to extend hospitality to the men in olive drab and blue. All who shared this spirit or came in contact with it hoped it might not be permitted to lapse with the coming of peace. In Community Service this fine product of war's tumultuous days finds its penetration.

TO THE MEMBERS OF THE DAY NURSERY

To the members who have signed up for the Day Nursery, I wish to say that I have failed to get a Board of Directors elected and do not want to keep your money if you are not satisfied.

I have had my home incorporated and made myself Secretary-Treasurer and will go on with the work as best we can without the Board of Directors till later. I will not have any solicitor out but myself and no one has a right to collect money or to solicit funds for the Day Nursery in Ada, or elsewhere.

However, I am leaving Mrs. Fannie McEwin as head matron at 426 East Main Street, Ada, and I am leaving a list with her and would be glad to have you step in and visit the baby's home and sign up as a member if you are interested.

2-2-1t MRS. PARKS

City Briefs

Get it at Gwin & Mays.
Have your Photo made at West's.
Let a Want Ad get it for you.

Mrs. Wick Adair left last night for Bromide for a few days visit.

Steve Fish returned to Stonewall yesterday after visiting friends in the city.

Mr. and Mrs. Y. McCammon, of Horse Shoe Ranch, were in the city Saturday.

Miss Willetta Kittell, instructor of piano at the Normal, returned yesterday after spending the holidays at her home in Topeka, Kans., and visiting friends at Marysville, Mo.

YESTERDAY AT THE CHRISTIAN CHURCH

There was an unusually large attendance at the Sunday School yesterday morning, one hundred and sixty-one being present. A new class was formed with Mr. E. E. Emerson as teacher. This is a class of Junior boys. There was good singing and a fine spirit.

At the morning hour of worship when the invitation was given, two persons came forward for membership—Miss George Belle Gage, of Purcell, Oklahoma, and Miss Minnie Criswell, of Clovis, New Mexico, both of whom came to put in their membership with the church. Miss Purcell is a student here in the Normal college, and is rooming at 119 N. Mississippi. Miss Criswell is deputy county clerk, and stays at her brothers, J. U. Criswell.

At the meeting of the elders and deacons in the afternoon, a committee was appointed to make an investigation with reference to securing funds from the National Board of Church Extension for the New Church building. The committee consists of L. T. Walters, C. E. Canning, and Walter Goynne. Another committee was appointed to take up the matter of securing an evangelist for a revival meeting some time in the summer. Other matters were discussed in reference to the new church building.

In the evening a fine audience gathered to hear the first of the sixteen sermons on the Book of Revelation. The preacher's theme was, "The Glorified Christ." The audience proved themselves good listeners. A quartet rendered most commendably, "Crossing the Bar." The quartet consisted of C. E. Canning, L. T. Walters, E. E. Emerson, and Oscar Parker, all members of the church.

JAPANESE ROBE IS FAVORED NEGLIGEE

There are no lounging robes more attractive than the prettily embroidered Japanese kimono which seem more popular now than ever before. This one is warm and practical, yet it is very beautiful, with its dark blue padded silk daintily embroidered in cherry blossoms. It is lined with flesh colored silk and a huge bow at the back conforms to the oriental idea.

son, and Oscar Parker, all members of the church. The next one of these sermons will be preached on the subject, "The Seven Spirits of God" next Sunday evening. The best seats can be secured by coming early.

Filipino Proverbs.

There is a certain dignity in many of the proverbs native to the Philippine Islands. "A hero is braver for his wounds," the Filipinos say. "The quality of gold is known by rubbing it against a stone." "He who despises counsel is on the way to misfortune." "Whoever believes everything that is said has no mind of his own." "A sleeping shrimp is carried away by the current." "A fish is caught by its mouth." "If you sleep, brother, the crocodile will eat you up."

The highest form of salesmanship is nothing but service.

The only influence worth having is the influence you yourself create.

MARRYING FARMER TRIED TO IMITATE NOTED BLUEBEARD

Clem P. Tarwich.

Clem P. Tarwich, known as a "marrying farmer," was found guilty recently of trying to poison his seventh wife, who had divorced him, by putting a deadly poison in the well at her home near Sheridan, Ind. He was sentenced to serve from three to fourteen years in the Indiana state prison.

SUPREME COURT SAYS VOLSTEAD ACT LEGAL

By the Associated Press

WASHINGTON, Jan. 5.—The supreme court today declared constitutional the sections of the Volstead prohibition enforcement act prohibiting the manufacture and sale of "beer, wines, or other intoxicating liquors," containing one-half of one per cent or more of alcohol. Beer containing 2 3-4 per cent of alcohol is illegal under the wartime prohibition act, the supreme court decided.

Dismissal by the lower court in New York of injunction proceedings brought to restrain government officials from interfering with Jacob Ruppert, a brewer, in the manufacture of beer containing approximately 2 3-4 per cent alcohol but alleged to be non-intoxicating, was sustained.

WASHINGTON, Jan. 5.—Associate Justice Brandies, who rendered the opinion of the court, said the power of the act of suppressing liquor was not a power of justice, but a power of injustice.

The court was divided, five of the associate justices favoring the constitutionality of the measure, while four, Gay, Vandevender, Clark and McReynolds, dissented.

Justice McReynolds in a dissenting opinion, said that the Eighteenth Amendment had not yet come into effect, and that the federal government had not the general power to prohibit the manufacture and sale of liquor. He took the ground that the war emergency under the national prohibition act was not effective.

I. W. W. KILLERS ON TRIAL TODAY

(Continued from Page One)

guilty at Chehalis and were granted a change of venue to Montesano. In the investigation many eye witnesses said the first shooting was begun without warning or provocation by those inside the I. W. W. hall. Some said the firing began from the hall after a single shot from the Avalon hotel, opposite the hall.

At the coroner's inquest Dr. Frank Bickford, Centralia physician and former service man, who was marching in the parade, testified that the shooting began only after the marchers started to rush the hall.

Wesley Everetts, said to have been an I. W. W. organizer and slayer of Hubbard, was spirited from the jail in the night following the shooting, the electric lights of the town having been cut off. He was taken by the mob to a bridge over the Chehalis river where he was hanged.

Several service men who were wounded by shots have completely recovered.

Twenty-four men, rounded up after the shooting, were charged with criminal activities but several of these have since been released.

Teacher Training Class.

The Teacher Training Class will meet this evening at the Christian Church at seven-thirty. All members are asked to take notice of the change of time from seven to seven-thirty. This evening the class will study "The Bible School and the Church." There were some new members last Monday evening, and we had a fine class. All teachers and officers of the school would be benefited by taking this course, as we shall have nearly thirty lessons on the work of the Bible School. Visitors always welcome.

SANTILL MURDER CASE ON AT BROWNWOOD, TEX.

By the Associated Press

BROWNWOOD, Tex., Jan. 5.—Continued from last June, the trial of Harry J. Santill in connection with the slaying of Col. M. C. Bugler and Mrs. Santill at Alpine, Tex., July 20, 1916, was called in district court today. In a previous trial Santill was acquitted of murdering his wife, and on a second trial he was found guilty of killing the army officer and a sentence of five years imprisonment was imposed. The decision was reversed on a technicality and a new trial was ordered.

DEMOCRAT DINNER ON JACKSON DAY

PRESIDENT ANNOUNCES HE WILL SEND PARTY LEADERS "IMPORTANT WORD OF GREETING."

By the Associated Press

WASHINGTON, Jan. 5.—President Wilson will send an "important

word of greeting" to the democratic dinner on Jackson day, January 8, it was announced today at the White House.

The vanguard of democratic leaders who will gather here this week for the quadrennial meeting of the party's national committee and the Jackson day dinner began arriving today. Although the only business meeting of the committee at which the time and city for holding the national convention will be chosen will not be held until Thursday, many of the leaders desire to arrive early in order to discuss the coming campaign.

The national committee announced today that seven governors would attend the dinner Thursday evening. Acceptances of invitations

have been received from Governors Cox of Ohio, Cornwell of West Virginia, Brough of Arkansas, Cooper of South Carolina, Robertson of Oklahoma, and Davis of Virginia.

Mothers' Club Meets.

The Mothers' Club of the Willard School held its regular business meeting Friday afternoon.

A quartette consisting of four girls from the eighth grade gave a song that was enjoyed very much.

The club has purchased a new picture for the eighth grade room. It was decided not to have a school garden this year, but to use the space for additional playgrounds. The seventh grade received the picture for the coming month.

Clever Management of Braid in Suits

Braid and buttons have been the accustomed decorations for suits for so long a time that we take them as a matter of course and are not surprised to find them among any season's productions. Their popularity ebbs and flows; occasionally there is a season when they almost disappear and then comes a time when there is no getting away from them. They have been at the ebb for the past two seasons—sparingly but most cleverly used in ingenious ways that are surprisingly novel. Like the return of old friends after an absence, braid and bone buttons are welcome, especially when we discover them so smart and original in application.

The suit at the right has a few buttons and a little braid, but these are used with consummate taste. The braid appears in a lattice-work applique on the front and back of the coat, which is a vague-fitting belted model, conservative and graceful. Buttons are set along the top of the pockets and on the narrow belt at the back. It is a suit for any climate or any season.

The suit at the left differs only by having more buttons set in two long rows at the back, with bands of braid joining them. They form a narrow panel that is turned under, in most unexpected fashion, at the bottom. It is little, unusual touches of this kind that give clothes distinction.

Designers who determined to use braid evidently made up their minds to think up new ways of applying it. These are only two of several braid-trimmed models that have compelled admiration for their originality and ingenuity.

Julia Bottomly

SAYS PROHIBITION WILL MAKE TOBACCO INDUSTRY FLOURISH

Sir Hugo Cunliffe-Owen, head of the British-American Tobacco Company, who has just arrived in this country from England, believes that for the activities of the anti-tobacco fanatics the outlook for the tobacco industry never was brighter. He believes that prohibition will make American smoke all the harder.

Tornadoes come with a smash. You cannot save your property but you can save its value by tornado insurance. Let us fix it up for you at once we know how. Phone 502 Cowling & Carpenter. 1-23-12.

In the south of China silkworms have been reared and silk manufactured for over 3,000 years.

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets.

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 10c and 25c.

Children's Colds—

To make your distressed baby easy and comfortable, give *Foley's Honey and Tar*.

It is just what children ought to have for feverish colds, coughs, "snuffles" and tight wheezy breathing. It stops croup, too.

Foley's Honey and Tar tastes good and the little ones like it. It contains no morphine, chloroform or other drugs that you would not like to give the young children. Do not accept a substitute.

"My baby was stricken with a severe cough and cold at one month old. I gave him tea to three drops of *Foley's Honey and Tar* every three hours and it cured, did help him. He hasn't been sick a day since." Mrs. R. E. Garrett, Schoolfield, Va.

COMMITTEE ON ECONOMIC RESEARCH SAYS PROSPERITY IS AHEAD AND THAT PRICES WILL DROP.

By the Associated Press
CAMBRIDGE, Mass., Feb. 1.—The Harvard Committee on Economic Research, appointed by Harvard University to make special studies of economic conditions, has just announced that the United States may expect a check in the upward movement of prices and of business activity, which has been in progress since last April and perhaps a drop in prices. At the present time, however, the committee states, and on the basis of the November and December figures, it would be premature to conclude that a violent recession in commodity prices is probable.

The committee was appointed by Harvard University in 1917 to assist in the solution of the fundamental economic problems which underlie modern commerce and finance. It provides statistical information to federal reserve banks, for banking houses and large corporations and includes among its publications a review of economic statistics which contains a price forecaster.

The committee bases its present forecast upon statistical material representing the decline in the New York bank clearings, the volume of sales on the New York stock exchange, and the prices of industrial stocks, and analysis of the banking and trade situation, domestic and foreign.

Professor Warren M. Persons, editor of the Statistical Service, published by the committee, says that the statistics collected by the committee indicate that the farmers will continue to prosper in 1920 and that the prosperity of this industry will contribute to that of all others during the coming year.

The beginning of the new year, he declares, finds American manufacturing industries in a sound and prosperous condition.

"The tightness of the money market and the announced policy, already inaugurated, of the Federal Reserve Board of increasing discount rates, have caused many observers to have grave misgivings for the financial outlook for 1920," he says. "Instead of causing alarm, the action of the Federal Reserve Board should in fact be regarded as a favorable omen. High interest rates are the main reliance for protecting bank reserves and they spell not disaster but safety, provided they are applied in time. Control of interest rates is the safe and effective way of dealing with such a situation as we now face, and it is to be hoped that nothing—not even the needs of the United States Treasury—will divert the Reserve Board from pursuing the only sane and conservative course."

The outlook for 1920 is for a continuance of a large demand for credit that will not be supplied except at increasing rates. High rates for bank loans will eventually tend

to check the upward movement of commodity prices as they have already checked the upward trend of security prices and the volume of speculation on the New York Stock Exchange."

Of the belief of some business men that the whole economic situation now is abnormal the committee says: "Abnormal it certainly is in many respects. Prices are very high; there has been great expansion of bank credit; extravagant expenditure, both public and private, is found on every hand, and our abnormally large export trade is likely to suffer curtailment."

A year ago many observers expected a violent drop in prices and a crisis in 1919. Today there seems to be less reason for expecting such developments in 1920."

The Harvard Committee on Economic Research is planning to publish this year monographs embodying special studies of the principal economic conditions and forces that will affect prices and trade throughout the world during the next five years. The committee also will study and classify the annual statistics of industrial commerce and finance and will construct trade indices based upon them. The committee is composed of University professors and men of affairs, with Charles J. Bullock, Professor of Economics at Harvard, as its chairman.

PARAGUAY TEA TO BE SUBSTITUTE

"BOTTLED MATE" BEING GROOMED AS PROHIBITION DRINK FOR THIRST CURSED AMERICANS.

By the Associated Press
BUENOS AIRES, Feb. 1.—Bottled mate or Paraguay tea, the famous South American beverage, may become a prohibition drink in the United States. One North American manufacturer of beverages is making inquiries in Buenos Aires to ascertain whether to import the mate herb from Argentina and introduce it to North Americans.

Drinking mate through the bombilla is a national custom not so much practiced in South American cities as formerly but it is still common in the "camp" or agricultural districts. The bombilla, a metal tube about six inches long with the thickness of a pencil, is fan-shaped, at the end and dotted with small holes like a sieve through which the liquid is drunk from a sun-dried gourd about the size of a large apple.

The liquid is prepared by filling the gourd with the herb, then boiling water is added. The host takes the first drink and the gourd is refilled and handed to the guests in succession. The supply of mate is renewed as required. Silver and even gold gourds are now used by wealthy families.

Mate is grown extensively in the extreme northeastern section of Argentina. Paraguay and Brazil where large tracts of land are given over to its cultivation.

The herb possesses astringent qualities which makes it an invaluable

A Fine Building For Democrat Meet at San Francisco

By the Associated Press
SAN FRANCISCO, Feb. 1.—The main hall of the Exposition Memorial Auditorium, where the national democratic convention will be held June 28, will accommodate about 10,000 persons. Forty-five hundred can be seated on the floor of the hall, 4,416 in the balcony and there will be standing room for 1,500 others.

The four story auditorium of concrete and granite, erected in 1915 at a cost of \$2,000,000, is said by the bureau of memorial buildings of the War Camps Community Service to be "the finest and most costly structure of its kind in America." It is one of a group of public buildings in the civic center.

There are two large supplementary halls in the building. One will seat 900 persons and the other 750. In addition there are eight other halls and 19 rooms that might be used for committee meetings.

Through the 37 separate exits, it is estimated, the building, though crowded to capacity, could be emptied in six or seven minutes.

San Francisco residents consider the big organ in the auditorium the finest in the country.

Several other municipal auditoriums have main halls somewhat larger than the one here. Denver's seats 12,500. The one at Oakland, Cal., seats 12,000 and St. Paul's accommodates a like number.

"ONLY ONE THING BREAKS MY COLD!"

"That's Dr. King's New Discovery for fifty years a cold-breaker"

NOTHING but sustained quality and unflinching effectiveness can arouse such enthusiasm. Nothing but sure relief from centuries old colds and coughing now, colds, grippe, throat-irritation, croup and croup could have made Dr. King's New Discovery the nationally popular and standard remedy it is today. Fifty years old and always reliable. Good for the whole family. A bottle in the medicine cabinet means a short-lived cold or cough. 60c and \$1.20. All druggists.

Regular Bowels Is Health

Bowels that move spontaneously—free and easy and without the next—should be healthfully regulated by Dr. King's New Life Pills. In this way you keep the impurities of waste matter from circulating through the system by cleansing the bowels the regular and promoting the proper flow of bile.

Mild, comfortable, yet given reliable. Dr. King's New Life Pills work with precision without constipation results of violent purgatives. 50c. as usual at all druggists.

Here We Have a Bran New Theory About the Planets

A layman of ordinary intelligence and education asks a layman of similar intellectual equipment, living one hundred years hence, a series of questions regarding prevalent beliefs among intelligent people of that coming day and age. Following are the questions and replies:

"What is your opinion of the sun?"

"It is a huge electrical furnace generating its own electricity. It is also the source of light."

"Is it also a source of heat? Don't the sun's rays warm the earth?"

"Yes, but not directly and they are not rays of heat, as you have been taught and probably believe. We believe, in fact we know, that such a thing is impossible."

"Why impossible?"

"Because we know enough of the laws of heat to know that heat, no matter how intense it may be at its source, could not pass through the ninety million miles of ether between the sun and earth, which is as much colder than ice as ice is colder than hot water. To believe that heat from the sun can warm the earth directly is as contrary to intelligent reason as to believe that the heat from a huge campfire on an island lake surrounded by a wall of ice a mile thick could warm people living outside the wall."

"How then does the sun warm the earth?"

"By electricity. The sun generates and sends out both light and electricity. They travel at about the same speed, but neither is heat. Light passes through both the ether and blanket of atmosphere supposed to be forty or fifty miles thick, which surrounds the earth, without obstruction. Ether offers no resistance to the electric current, but the atmosphere does. It is not a good conductor of electricity. The friction caused by the struggle of the electric current to reach the earth through the atmosphere heats the air and warms the earth."

"Can you illustrate this by something with which we are familiar?"

"Yes, the intense white electric light in the glass bulb which lights your room is warmed by friction just as is the warmth of the atmosphere. Two copper wires, copper being a good conductor of electricity, pass into and out of the glass bulb. They are connected by a very small platinum wire, which is not a good conductor. The electric current, in its struggle to pass through this poor conductor and reach the earth by the return copper wire, creates both intense heat and intense light. While the light can be seen for miles, the heat penetrates the atmosphere only a few inches. Fifty of them could not heat an ordinary room. Another illustration is that of wood, especially when green, is a better conductor for electric current than air. Hence electricity in the form of lightning often strikes trees and sometimes houses. The latter, being dry, are likely to be set on fire by the friction."

"Why is it that in the tropics near the seashore, the air may be uncomfortably warm, or even hot, while the not distant mountains are covered with snow?"

"Because of the difference in the thickness of the blanket of atmosphere which covers the earth. At the seashore surface the blanket is thick; on the high mountains the blanket is thin and offers less resistance to the electric current from the sun to the earth, hence less friction and less heat. Exactly the opposite is true at the ocean level."

"Why is it colder in the north temperate zone in the winter than in the summer?"

"Because the electric current from the sun to the earth is less direct. It seeks the earth by the shortest route, and much of it is drawn off to the south of us before it reaches our latitude. For substantially the same reason the air in our longitude is colder in the morning and evening than at noon."

"We were taught in the nineteenth century and so far in this, that while Mars, and possibly Venus, might be inhabited by beings consti-

tuted physically like ourselves, that life similar to ours would be impossible on Mercury and Jupiter; Mercury because it would be too hot, being so much nearer the sun, and Jupiter because it is too far away. What is your belief in the 2-st century?"

"I have seen those textbooks; they are still to be found in our libraries, but their teaching is discarded. Believing as we do, that the earth's heat is produced by friction generated by the electric current passing through the earth's blanket of atmosphere, we reason that so far as heat is concerned all the changes the Almighty would have to make in the Solar system would be to give to each its proper thickness of atmospheric blanket."

"How about the moon?"

"The moon is cold because it has no atmosphere. The same is probably true of the moons of Jupiter."

BABY NAMED

LYDIA E.

Because Her Mother Was Made Well by Lydia E. Pinkham's Vegetable Compound.

Brooklyn, N. Y.—"I could not write all my thanks for your blessed medicine, Lydia E. Pinkham's Vegetable Compound. I was in a very bad condition and had lost two babies. One of my good friends told me about Lydia E. Pinkham's Vegetable Compound and after I had taken eight or ten bottles I felt like a different woman. I kept on taking it until my baby girl was born last month and we have had her christened Lydia Elizabeth. I wish you to publish my letter to benefit other women who are suffering as I was."—Mrs. KATHARINE KURZACKER, 1056 Manhattan Avenue, Brooklyn, N. Y.

Women who suffer from any feminine ailment should not lose hope until they have tried Lydia E. Pinkham's Vegetable Compound.

The many convincing testimonials constantly published in the newspapers ought to be proof enough for women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

Egg Market No w Seems Certain Of Small Slump

On account of better weather conditions, especially in the South and Southwest, the production of eggs is heavier and prices for that reason have declined sharply the past week. Prospects indicate a further decline next week, although as the price works to a lower basis, consumption will naturally become heavier.

General opinion seems to be that producers are holding the average number of hens for producing purposes and we should therefore, see heavy production of eggs from now on.

Markets for butter has fluctuated considerably and decline has been due mostly to the fact that fair quantities of butter are coming into this country from Europe and South America, but as values work down, the demand is becoming heavier, and values should not show much change until the heavy producing season.

There has been a general movement of poultry the past week, due to better weather conditions and the prices now being offered to producers for their stock. However, there is not enough dressed poultry being shipped to markets and most of the large cities are now turning to frozen stock.

DEPORTATION CASES BEGIN

PROMISES TO BE THE HARDEST FOUGHT LAWSUIT IN HISTORY OF ARIZONA.

By the Associated Press

TOMBSTONE, Ariz., Feb. 2.—The Bisbee "deportation trials," set to begin here today, are expected to develop the hardest-fought legal battle in the history of Arizona. The litigation resulted from the deportation of 1,186 striking copper mine workers and their sympathizers from Bisbee, Ariz., to New Mexico on July 12, 1917.

More than 200 defendants, among them many of the most prominent citizens of Bisbee and vicinity, have been summoned to appear in the superior court here to answer charges of kidnapping in connection with the deportation. Harry S. Wheeler, former sheriff of Cochise county, who has taken upon himself sole responsibility for the deportation, mine managers, superintendents and foremen; bankers, merchants and professional men, are among the defendants.

Judge Samuel L. Fattis, of Pima county, who has been designated to preside, first gained prominence by revising and codifying the laws of Arizona after her admission to statehood.

Officials of the county attorney's office are understood to have traveled through many western states gathering depositions from the men who were deported.

Preliminary examinations were held in Douglas last year. These were followed by a trial in the federal court at Tucson of 20 leaders in the financial and industrial life of Bisbee, Douglas and Warren on indictments charging conspiracy to deprive a citizen of his rights in violation of the penal code. The defense raised a question of the court's jurisdiction in that case and it was sustained with the result that the trial of 200 or more, instead of the 20 alleged leaders, was undertaken in the state courts.

A third action is pending. It is a

civil proceeding for damages alleged to have been sustained by the deported men by reason of their deportation.

The deportation of the 1,186 men followed a prolonged strike in the copper mines of Bisbee. Accusations were printed in the newspapers of the southwest that the strike was fomented by Industrial Workers of the World for the purpose of cutting off the production of copper needed by the Allied and Associated powers in the war against Germany.

Sheriff Wheeler, who directed the deportations, declared at the time that all of the men deported were known to be members of the I. W. W., but an investigating committee, under Secretary of Labor Wilson, reported that some of the deported men were not members of the I. W. W., but were business men and property owners who had lived in the district many years.

Fifteen hundred armed men under Sheriff Wheeler herded the strikers and sympathizers into the baseball park at Warren, examined each one, released those who promised to return to work, loaded the remainder on a train of cattle cars and box cars, put guards on board and the train proceeded to a sidetrack at Hermanas, N. M., where it was left. United States troops on July 14 removed the exiles to a camp at Columbus, N. M., where they remained for several weeks until they finally drifted away. Two men, one a deputy sheriff, were killed in the roundup at Bisbee.

Snake Oil

Positively Relieves Pain in Few Minutes.

Try it right now for Rheumatism, Neuralgia, Lumbago, sore, stiff and swollen joints, pain in the head, back and limbs, corns, bunions, etc. After one application pain usually disappears as if by magic.

This new remedy used internally and externally for coughs, colds, croup, influenza, sore throat, diphtheria and tonsillitis.

This Oil is conceded to be the most penetrating remedy known. Its prompt and immediate effect in relieving pain is due to the fact that it penetrates to the affected parts at once. As an illustration, pour ten drops on the thickest piece of sole leather and it will penetrate this substance through and through in three minutes.

Accept no substitute. This great oil is sold in red and blue bottles. Manufactured by E. J. Juice Medicine Co. Every bottle guaranteed—35c. 70c and \$1.20 a bottle. at

GWIN & MAYS DRUG CO.

IT ENABLED HER TO TAKE A LONG TRIP

"After years of suffering Tanlac were put my wife in a fine state of health and she often boasts of how well she is feeling," said George H. Henkle, of 1302 Eastlands avenue, Nashville, Tenn.

"For years," he continued, "she was almost a confirmed dyspeptic and she suffered also from a nervous affection. Right after meals gas would form on her stomach, which kept her in distress most all the time. She always had to be most careful about her eating and was troubled at times with dizziness and swimming of the head. For a long time she had wanted to take a trip North, but couldn't do so on account of her condition."

When she saw Tanlac advertised and so many people endorsing it, she decided to try it and found almost immediate relief. Tanlac gave her a fine appetite and put her stomach in fine shape so she could eat and enjoy her meals without having any trouble afterwards. She hasn't complained of dizziness or swimming of the head since starting on it and that nervous condition has also quite disappeared. Tanlac built her up so she was enabled to take a trip North, where she was gone four months, and she wasn't sick a minute of the whole time she was away. She is delighted with what Tanlac has done for her and thinks there is no other medicine like it."

All druggists sell Tanlac. adv.

Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the rising cost of living.

Other causes—the waste of war, under-production, credit inflation—have added dollars to the cost of the necessities of life, while freight charges have added only cents.

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for \$30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16½ cents.

Now the freight charge is 22 cents and the suit sells for \$50.

The cost of the suit has increased 20 dollars. The freight on it has increased only 5½ cents.

Other transportation charges enter into the cost of the finished article—carrying the wool to the mills and the cloth to the tailors—but these other charges amount to but a few cents more.

The \$10 pair of shoes that used to sell for \$5 goes from the New England factory to the Florida dealer for a freight charge of 5½ cents—only one cent more than the pre-war rate.

Beef pays only two-thirds of a cent a pound freight from Chicago to New York.

American freight rates are the lowest in the world.

LET'S HAVE THE TRUTH

The county convention of Democrats at Lawton Saturday unanimously adopted a resolution denouncing "the local Republican paper for repeatedly publishing the falsehood that Mr. Ferris opposed an increase in the pay of soldiers, when the records disclose that he worked and repeatedly voted for increased pay, etc."

The record speaks for itself and the record is what the public is entitled to see. Frequently during the past few months we have read in three Oklahoma periodicals this charge that Mr. Ferris opposed this increase in the pay of soldiers. If the charge is maliciously false, as the Lawton resolutions declare, their falsity should be shown by the record in order that the public may know that Mr. Ferris is being falsely accused. If the charge is a true one, if the record shows that Mr. Ferris did indeed vote against increasing the pay of soldiers, then simple justice to the Lawton News demands that the record be given the widest possible circulation.

The characterization of the Lawton News as "a Republican paper" presents another interesting angle to the senatorial controversy. Only recently a large display article from the Lawton News attacking Scott Ferris was given wide circulation in the state. That article was reproduced by Harlow's Weekly, the Tishomingo Capital-Democrat, and possibly other papers. Nothing was said in any of these papers about Lawton News being Republican. The average reader would consider it a Democratic attack on a Democratic candidate by a Democratic newspaper in the candidate's home town. If the Lawton News is in truth a Republican paper, then somebody has been guilty of the rankest kind of political false pretense.

The Evening News has a deep interest in this senatorial fight, but it has a deeper interest in getting at the truth than it has in the interest of any candidate. On behalf of its readers the Evening News raises these two questions: Did Scott Ferris oppose increased pay for soldiers? Is the Lawton News a Republican paper?

The resolution adopted by the democratic women in the state convention at Oklahoma City Tuesday indorsed the league of nations and pledged their votes against and their opposition to "any candidate for the senate who has obstructed or threatened to obstruct" the approval of the league. They failed to mention any names, but we doubt if either the Tulsa World or Harlow's Weekly will assert that they were referring to Scott Ferris.

The Russian soviet has become strong enough to fight the whole world, Ludwig C. A. K. Martens told a senate committee the other day. And that's exactly what Germany said once upon a time. There's an old codger cutting brush in the back pastures of Holland who can give the soviet pointers on what happens to chaps who cover too much territory.

Speaking of presidential candidates, if the League of Nations is made the issue of the campaign, there are only two logical candidates and they are Woodrow Wilson and Henry Cabot Lodge.

Notice to the Public

The attention of the public is called to the danger of so many people visiting the state convict camp at the county fair grounds. The camp guards state that on many occasions convicts have taken advantage of the presence of crowds to try a get-away. Yesterday there was a specially large crowd at the camp and none of them realized the danger they were creating by their presence. Crowds are respectfully urged not to congregate about the camp.

Norway is turning from German culture to French, English and American, says Johan Bojer, distinguished Norwegian author.

TRACTOR OVERTURNS INJURING DRIVER

W. W. Norton, living west of the city, was injured about ten o'clock Saturday morning by a Fordson tractor overturning on him. While driving the tractor along a rather muddy route near the city, Mr. Norton suddenly put too much gas pressure to the tractor and it reared up and overturned backward, pinning him underneath. Owing to the softness of the ground underneath he was probably saved from death, as it was he was badly bruised and thought to be internally injured but no bones were broken.

Mr. Norton is reported to be doing as well as could be expected this afternoon.

Hair Trouble Successfully Treated

THE CALVAGURA METHOD IS A SCIENTIFIC, NATURAL METHOD, INVOLVING NO PAINFUL TREATMENT

Simple Test. If hairs adhere to your comb, examine them closely. If the root is soft, dry, dead looking, this warning, correct the trouble if you want to save your hair and make it grow.

Let the Proven to you by sending you a Complete Treatment and our illustrated book, "The Triumph of Science Over Rudeness," that the Calvatura Natural Method of Hair Culture stops the falling of hair, drives away dandruff or excess of the scalp and promotes the growth of new hair.

We will send a liberal sample of Calvatura No. 1 and our illustrated book on the care of the hair and scalp, if you will write your name and address plainly on a piece of paper, enclosing it with ten cents, silver or stamps, as evidence of your good faith, in an envelope addressed to:

UNION LABORATORY

BIRMINGHAM, ALA.

Do it Now, Before You Forget

A TOAST

The world applauds the singing girls
And the dancers get their due.
Mankind's in love with society girls,
And artistic damsels too.
The public praises business girls
For the wholesome parts they play.
But little's said of domestic girls
Who keep us a place to stay.
So here's to the good old homely girl
That knows how to build a nest,
For after all she's the very girl
That most men love the best.
Three cheers to the girl that can cook hot rocks
And build good stew and darn old socks.—L. Norman.

TO HELP CHOOSE LIST OF GERMANS TO STAND TRIAL

Surgeon General M. A. Iogolevitch.

Surgeon General Iogolevitch recently arrived in San Francisco on his way to Washington to seek economic aid for the Cossack forces under General Semenov, fighting the Bolsheviks in Siberia. The envoy lays the responsibility for the misunderstanding between Americans and the natives of Siberia to the work of the radically inclined foreign-born members of the Siberian Expeditionary Forces. These radical tendencies by the allied soldiers have had a demoralizing effect on the soldiery as well as the civilian population, he says.

Cabinet Changes Were Order of the Day Today It Seems

WASHINGTON, Feb. 2.—Cabinet changes were the order of the day here today. Carter Glass, secretary of the treasury, who recently was appointed to succeed the late Senator Thomas S. Martin, was expected to be sworn in this afternoon as senator from Virginia. A Franklin Houston, who has been secretary of Agriculture since the beginning of the Wilson administration, will take the oath of office as successor to Mr. Glass and Edwin T. Meredith of Des Moines, Iowa, becomes head of the department of agriculture, succeeding Mr. Houston.

Allies Approve the List of German Scalps Which They Are After

PARIS, Feb. 2.—The list of German subjects whose extradition is demanded by the Allies was finally approved by the council of ambassadors today. The council also approved the terms of the note to accompany the list. The list and the note probably will be handed to Baron Von Lesner, head of the German peace delegation as soon as the covering letter has been framed. The council considered an application for the admission of the Belgian Ambassador to the meeting of the council on the ground of Belgium's proximity to Germany and her participation in the occupation of the Rhineland and it was decided to invite him to attend when Belgium interests were in question.

PARIS, Feb. 2.—The list of Germans to be demanded by the allies and placed on trial charged with violation of humane warfare will probably be given to German representatives here today, according to one of the Paris papers. It is expected Germany will resist the demands, the newspaper says, and that a peace conference will probably be considered further and at the same time will examine the different violations of the conference of the armistice peace treaty by Germans.

Newberry Case to Proceed.
GRAND RAPIDS, Mich., Feb. 2.—Although half a dozen of the defendants in the Newberry election trial were reported today as unable to be in court, indications were that there would be no delay in the case. All the jurors under the eye of the physician had so far escaped the influenza epidemic which Sunday affected three more defendants including Hon. S. Newberry, father of the principal defendant.

Liquor Is Not A Medicine Say The Methodists

Ada, Okla., 2-2-20.
Editor of Ada News:
Your editorial on the front page of the News for January 31, 1920, under the caption of "Let Them Die," was discussed by the Men's Bible Class of the First M. E. Church Sunday the first, and by resolution disagreed with you and appointed the undersigned committee to present our side of the case and to protest against the editorial in our leading paper upholding the use of alcohol and the fallacy of the argument presented for the use of liquor as a medicine. And in support of our position, in opposition to yours, we present the following from medical authorities which appeared in the Daily Oklahoman of Jan. 31, 1920:

WHISKY NO LONGER MEDICINE
No Mention of Liquors Made in Next American Pharmacopoeia.
ST. LOUIS, Jan. 30.—Whisky and brandy have been eliminated as medicines, it was declared here today by Dr. Harvey W. Wiley, president of the United States Pharmacopoeial convention, and former chief of the bureau of chemistry, department of agriculture. No mention of alcoholic liquors as medicines will be made in the next issue of the American Pharmacopoeia, which is prepared every ten years, he said. This was determined upon, Dr. Wiley asserted, several years before national prohibition became effective.

Whisky, instead of being an effective remedy or preventative for influenza, is a positive poison in such cases, said Dr. Wiley.

and the following from the Health department of Chicago, refusing the request of the district attorney to release certain contraband whisky to be used to fight the "flu":

"FLU" WHISKY IS REFUSED.
Chicago Health Officials Say it Will Not Prevent Sickness.
CHICAGO, Jan. 29.—Health department officials today refused to give their approval to the plan of District Attorney Charles F. Clyne to release contraband whisky to local hospitals for use in fighting the influenza epidemic.

"As a general proposition whisky does not prevent influenza, nor will it serve as a cure," said Deputy Commissioner Koehler, "although in some cases it may serve as a stimulant."

We desire to be fair in the discussion and, if wrong, we want to know it, therefore, if you have any stronger authorities than we here present in opposition to your theory then kindly present them for the consideration of the public.

FIFTEEN MILLION PELTS PLACED ON ST. LOUIS MARKET

ST. LOUIS, Mo., Feb. 2.—Approximately 15,000,000 pelts, valued at more than \$25,000,000, were placed on sale here today at the opening of the winter auction of the International Fur Exchange. Buyers predicted the sale would be the largest in the history of the trade.

More than 400 buyers and shippers from all parts of the earth are in attendance, and furs from virtually every nation are on sale. Among the buyers are 23 from Germany, and by special government dispensation, quantities of German mole and fox skins were permitted to be imported for the sale.

The most expensive lot to be offered is one consisting of 7,000 Russian sables, said to be the most expensive type of fur existent. This particular type is especially scarce because the Bolshevik uprisings have curtailed its shipments, according to Philip B. Fouke, president of the exchange.

Silver fox pelts also are expected to be high, and 1,500 of them will bring \$500,000, it was predicted. The smallest lot on the program is a sea otter, a type said to be gradually becoming extinct, and its price, it was presaged, will approximate \$10,000.

The largest number of skins of one kind to be offered is 7,000,000 rabbit. The will sell for about \$1,000,000, it was said, and will be used principally in the manufacture of hats.

Nine thousand government seal skins from the Prydzloof Islands will be up for sale, and buyers expressed the belief they also would bring \$1,000,000.

Other large lots to be disposed of include various grades of squirrel, fox, marten and mink. There is also a large shipment of Chinese dog mats, said to be used chiefly in making stockmen's coats.

NOTICE TO CHICKEN OWNERS
As gardening season of the year is approaching people are beginning to make complaint about chickens running at large and trespassing upon their premises. Notice is hereby given that it is a violation of the city ordinance to let chickens, turkeys, ducks and all such fowls run at large and hereafter persons found violating said ordinance will be prosecuted for same.

Respectfully,
J. L. RAWLS,
Chief of Police.

WILL POISON GAS BE USED IN THE NEXT BIG WAR?

LONDON, Feb. 1.—There would be no more reason to forbid the use of gas than to prohibit the employment of rifles in the next war, says Major-General Sir Louis Jackson of the Royal Engineers, formerly in charge of offensive gas production. There were he declared gases which killed painlessly and it was easy to conceive cases in which it would be more humane to use gas than explosive shells. It might be possible to come to some arrangement whereby no gas should be used that caused unnecessary suffering.

In a recent address before some of the leading lights in the military world he stated that the world was on the eve of the most extensive modifications in the art of war known to history, and the changes made in the recent war were only the beginning. It was necessary to develop new arms with the knowledge that the nation which best did so would have a great advantage in the next war.

Tanks were not likely to be used in future wars but they had shown that mechanical transport was not dependent on highways and that therefore the whole transport of an army could be carried by vehicles with caterpillar wheels independently of the roads.

Air fighting, would be enormously developed. The short rifle would be replaced by a short carbine which would be accurate up to a range of 500 yards.

Artillery would be much more mobile and if they were to allow for an advance of 12 miles a day the guns must be capable of an effective barrage up to 18,000 yards. He thought that a short 4.2 gun with an accurate range of 12,000 yards and a long 4.2 gun with a range of 20,000 yards might meet the requirements of the future soldier must be absolutely different from his predecessor. The days had gone by when initiative was considered not only unnecessary but dangerous. In addition to his rifle the soldier should be able to handle a Lewis or machine gun and to help the artillery. He should know something of explosives, have a knowledge of fuses, understand signaling and be able to handle a ground wireless set. He should receive intense training.

Oklahoma City Times: The clerks of the Kansas legislature, now in special session, want their pay raised from three to five dollars a day. In the meantime, there is some curiosity as to how they pay their expenses.

Methodist Notes

The Epworth and Intermediate leagues have united and meet every Sunday evening at 6:15. Last evening the subject was "Seeing Good in Others." An interesting talk on the subject was made by Rev. Taylor.

The attendance was not so large as has been. Twenty-eight members present and several visitors. Members urged to be present and all interested in the work are welcome. LOUISE MEADERS, Reporter

Allies Against Hopaburgs. PARIS, Feb. 2.—Formal denial of rumors that the allies will recognize the restoration of the Hapsburg House in Hungary was issued by the council of ambassadors this afternoon. The statement said such a restoration would be in direct variance with the principles of the peace treaty.

THE FIRST GLIMPSES OF SPRING

—like budding flowers unfolding, the new fashions reveal the first glimpses of lovely Spring.
—rapidly increasing in numbers, the new Suits and Coats now being shown on our Garment Section will be of exceptional interest to every woman.
—almost every express brings us new things from the foremost artists and designers in the East—smart, distinctive clothes that bring forth spontaneous admiration and enthusiasm from those that view them as they are unpacked—their moderate prices are as impressive as the garments selves.

And the New Suits are Very Smart

—Loose box coats of hip length, bloused models, belted types with ripple back and Eton effects are to be seen among the new Suits for Spring, as well as strictly tailored models of smartness and distinctive character.

—Fashioned in Tricotine and Poiret Twill and Serges, with sleeves of full length—collars are of the shawl variety or in plain tailored lines.
—Artistic trimming of Soutache braid or silk embroidery—fancy vests—plaited skirts are other style notes to be seen in the new suits.
—Navy predominates, with a showing of new tans, grays and browns.

Priced \$35 to \$100.00

Nobby Styles in POLO COATS

—They are much in demand this Spring.
—In the short sport models of innate smartness, fashioned of materials of wooly softness.
—In sand, tan, brown and horizon blue.

Priced from \$15 to \$75

CHRISTIAN ENDEAVOR PROGRAM LAST EVENING

A large audience greeted the Christian Endeavor Sunday evening for the staging of their Christian Endeavor Day programme. The programme, as planned was carried out. The main feature of the evening being the Missionary Demonstration, "Where Shall I Hang My Shingle?" which was enjoyed by all. It was very impressive as it showed the dire need of the different countries and brought home the fact more clearly the huge work which the Christian Endeavor Society is doing in aiding Missionary work.

A special collection was taken for Missions, the result being as follows:
Loose Collection\$37.56
Pledges 8.50
Church Missionary Fund gave 10.00

Total\$56.06
The members of the Executive Committee voted to allow the money used for lunches to go into the Missionary fund, this sum of \$18.00 brought the grand total up to \$74.06. This will be raised to \$75.00 which is \$25.00 more than the \$50 which is the Society's allotment to Missions this year. \$50. will support a boy in the Boys' Orphanage at Damoh, India for the period of a year. So the Endeavor Society went beyond its greatest expectations last night in receiving money to support an orphan for one and one half years.

of art, tailored costumes, dainty silks and other women's wear, jewels and other articles de luxe. But for study clothing, for shoes and woollens, for those things that a populace needs in a hard winter one can search in Vienna in vain. A diamond or rare painting, tapestry or cable coat, dainty glassware or exquisite leather and porcelain things can be found in the Karntnerstrasse or the Graben or the smart shop streets that radiate from them, but the owner of any one of them will sell you more readily for bacon, flour or sugar than for crowns. Recently many shops have refused to sell except for established foreign monies, although such a procedure is in direct violation of the law.

The government daily quotes the official rate of exchange at which official rate of exchange at which one can search in Vienna in vain. Some days these will give from ten to twenty points more or less than the official rate according to their own judgment of conditions. There are daily raids on illicit money changers in cafes, hotel corridors and in the side streets of the Bourse often netting millions of crowns, but the game goes on.

OSCAR SEAGLE

Normal
February 5th,
8:30 O'clock

We have had since Saturday a fine response on the sale of tickets — a few tickets returned — and one or two mighty cordial, informal, personally signed statements in connection with the return of tickets. They say if it comes to a show down we will help pull you.

We sent out Saturday pairs of tickets to the substantial citizens of the town and friends of the Normal. It is simply a very frank invitation to buy in on one of the finest attractions the town will ever have. It isn't an effort to force. If you just can't buy, then send the tickets back to us and we will apologize for blowing you for two cents.

But we believe you will never regret it if you get your seats checked tomorrow at Gwin & Mays and then hear Mr. Seagle on the 5th.

Mr. Seagle's increasing storm of popularity is only a reflection of his versatility in his art and of the very bigness of his American heart.

Another reason why you should trade with us is that the students incidental fee has not been raised to meet the H. C. L. and our fund is in bad shape. Make a straight boost for us this once more.

We lost our list of season ticket holders. So if you have bought just mail back the ones sent out today.

NEW YORK'S NEW "TOWN HALL" IS BEGUN; TEDDY ROOSEVELT LAYS THE CORNERSTONE

Teddy Roosevelt laying the cornerstone.

The construction of the new civic auditorium, to be known as New York's "town hall," is now under way. It is to be a public meeting place for Gotham. It is being built by the league of political education. Theodore Roosevelt, son of the late colonel, laid the cornerstone in a downpour of rain.

YE TOWN GOSSIP

Center, Okla., Feb. 2.
Editor Town Gossip: Please write a piece about Martha in the Town Gossip. The other day she ate so much that she was taken sick and wasn't able to do a thing for two days. I don't think it's nice for anyone to make a hog of herself, do you? Please print this in the Town Gossip. We all like to read it.
JIMMY BRIGGS.

DEAR JIMMY:
THERE'S YOUR letter.
AND I got it.
EARLY THIS morning.
AND IT'S rather vague.
AND PUZZLING.
AND I don't know.
WHAT TO make of it.
AND YOU DON'T say.
WHETHER MARTHA'S a girl.
OR A mule.
OR ONE of your chickens.
BUT WHICHEVER she is.
I AGREE with you.
AND IT'S foolish.
FOR HER to eat so much.
AND I hope
SHE'LL NEVER get sick again.
AND IF she's a girl.
AND I thought she was a mule.
I HOPE you'll apologize.
AND TELL her I'm sorry.
FOR THE mistake I made.
AND IF she's a mule.

AND I thought she was a girl.
I HOPE you'll apologize.
JUST THE same.
BECAUSE YOU see.
I DON'T want to hurt.
EITHER ONE of their feelings.
AND I don't know.
WHO YOU are.
AND YOU might be
EIGHT YEARS old.
AND THEN again.
YOU MIGHT be eighty.
AND ITS mighty hard.
TO ANSWER a letter.
WITH ANY degree of sense.
WHEN YOU don't know.
WHAT KIND of a person.
YOU'RE WRITING to.
AND ANYWAY.
MAYBE MARTHA'LL get mad.
BECAUSE I thought
THAT SHE was a mule.
OR THE mule will get mad.
OR MAYBE the chicken.
YOU CAN'T tell.
AND MAYBE you will.
AND IT'S awfully confusing.
AND TOO much trouble.
TRYING TO figure it out.
I THANK you.

NOTICE
The T. E. L. Class of the First Baptist Sunday School will meet in regular business session, in the class room, Tuesday 5 p.m. All members are urged to be present.

The earth's population doubles every 260 years.

We would be pleased to place you on our list as one of our many satisfied customers. Johnson & Auld, Tailors, Telephone 999. 2-2-3rd

The text-book business is enjoying a revival, especially in the history division, because of the revisions made necessary by the war.

REMOVAL NOTICE

After February 4th my offices will be located over Bart Smith's Drug Store, in the Rollow Building.

DR. CUMMINGS

THE RED MAN IS COMING TO LIFE

THE INDIAN CAN NO LONGER
BE THOUGHT OF AS A DYING
RACE SAY FIGURE
MAKERS

By the Associated Press
WASHINGTON, Feb. 1.—Despite popular belief that the civilization forced upon him by the white man means his ultimate extinction, the North American Indian, reviving from a long period of decadence, has shown such substantial increase in population in recent years that he probably is scarcely less numerous today than when Columbus discovered America.

Startling as this assertion may be to those who have pictured American forests in the discoverer's time as swarming with red men, it is freely advanced by experts of the government's Indian bureau, who maintain that the Indian necessarily formed an exceedingly scant population which probably at no period materially exceeded the total of 33,702 Indians reported by the bureau for last year.

"The Indian no longer is to be thought of as a dying race," declared Dr. Lawrence W. White, an Indian authority of the bureau. "In support of that statement it is necessary, in the first place, to disabuse the public mind of the tradition handed down by discoverers and early colonists that American forests in their day swarmed with the dusky figure of the red man. As the Indian neglected agriculture almost completely, it is highly improbable that this country, considering its latitude, could have supported more than several hundred thousand of his race."

On the other hand, Dr. White continued, the Indian in the present day, after periods of sharp decrease following as a natural reaction to sudden contact with the civilization of the white man, is seen to be making substantial gains in population.

"While many estimates or guesses of the Indian population were made during the past century," said Dr. White, "ranging from less than 100,000 to 400,000, the first reliable census was made by the Indian bureau in 1870, when the population was placed at 313,712. So figures demonstrate that in the last fifty years the Indian population has made a substantial net gain."

Pointing to statistics which show an excess of births over death of 1,522 in 1916 and almost as great an excess in 1917, normal years which were not affected by the epidemic of influenza, Dr. White declared these figures "fully reflected the generosity of a government that has increased its Indian health appropriation alone from \$40,000 in 1911 to \$350,000 in 1917 and subsequent years."

They demonstrate, he said, that with the schools, hospitals and other advantages now provided for him, the Indian, be he tribesman or freedman, is "not a dying race but rather a flourishing one." Had he been treated as other nations have been treated, there probably would not be a "vestige of the race within our republic today."

WOMAN WOULD AID STRIKERS' WIVES

Miss Helen Todd.

Miss Helen Todd's ambition is the formation of a "Woman to Woman" committee, whose members will get acquainted with the wives and children of strikers and try to get at the facts of labor disputes through the

DEMOCRATS MEET ELECT DELEGATES

PERFECT HARMONY MARKS
LARGE CONVENTION OF DEMOCRATS OF PONTOTOC COUNTY

The Democratic county convention that met in the district court room was marked by absolute harmony and bore many evidences of a Democratic love feast. While a great many precincts of the county were not represented, a number of other precincts sent double delegations and the convention was for that reason largely attended.

Dr. J. A. Deen as county chairman called the convention to order and was elected temporary chairman. Luther Harrison was elected temporary secretary. A permanent organization was effected by the election of Mrs. Marvin Brown as chairman and Chas. Orr as secretary. Mrs. Brown was nominated by Jno. P. Crawford, who in an eloquent speech reviewed the history of the struggle for equal suffrage in Oklahoma and congratulated the Democracy of Pontotoc County on the advent of women in the field of politics. Mrs. Brown accepted the honor of the chairmanship in a graceful speech that won hearty applause.

The following committees were appointed by the chair. Resolutions: Luther Harrison, R. C. Roland, E. N. Jones, Mrs. C. A. Galbraith and Mrs. Jno. P. McKinley. Delegates: Jno. P. Crawford, F. F. Brydia, Mrs. R. C. Roland, Mrs. Clay Jones, and Mrs. E. N. Jones. While these committees were out a number of speakers were called on and enlivened the proceedings by Democratic speeches.

The committee on Resolutions submitted the following report, which was adopted unanimously.

Resolutions
The Democracy of Pontotoc County join with the Democracy of the nation in expressing its pride that in the world's greatest war for democracy the administration of this republic was a Democratic administration. It emphasized the importance of the victory won, and refused to minimize the glory won by our troops on fields of carnage by capricious criticism of unavoidable mistakes. We have never apologized for having won the victory in an unexemplary struggle and we never shall gratify the questionable elements seeking to embarrass the administration by apologizing for winning the war.

In the present period of industrial unrest we call attention of all those having grievances to the power of Democratic ideals and principles to effect a cure of those industrial ills from which the public is suffering. Reaffirming our faith

on the box. 30c

In our fundamental doctrine that all men are created equal, we advance that principle as a sufficient remedy for industrial evils, and demand the abolition of special privilege, no matter by whom or what class enjoyed.

We regard with grave concern the growing number of the disaffected who seek to subvert our government and destroy our institutions by openly expressed contempt for law and order and by the open advocacy of physical violence for the accomplishment of political and industrial aims. We demand the most vigorous and most impartial enforcement of all laws. We express our abhorrence of any individual or any class that shows disrespect for our orderly processes of justice and government. We demand the most careful and exacting statutes forbidding the advocacy and practice of violence for political or industrial purposes. The ballot is the only weapon an intelligent freeman needs—it is the only weapon an honest freeman wants.

Inasmuch as national suffrage is a question in which a great number of the people are interested, and inasmuch as the ratification of the Susan B. Anthony amendment is now before the several states, we favor a special session of the legislature of Oklahoma to give our representatives an opportunity to vote on such ratification. In the event it is found that the vote of Oklahoma is needed to complete the required list of thirty-six states, we request Governor Robertson to convene such special session.

The Democratic party is proud of its Americanism and its loyalty to American ideals. We pride ourselves on the fact that the founder of the Democratic party wrote the Declaration of Independence. We pride ourselves that every inch of soil added to the states since the inauguration of Washington was made American territory during a Democratic administration and by Democratic administration and by Democratic votes. We pride ourselves that we are a national party and not a sectional party, in proof of which we submit the fact that during the past thirty years, forty seven of the states have at some time or other gone Democratic, where as in the same period of time only thirty eight of the states have gone Republican. We are particularly proud of the record made by the Democratic rank and file during the war just ended, and hereby pledge ourselves by the most solemn and binding obligations never to lend support or encouragement to any candidate whose loyalty was suspected during the war.

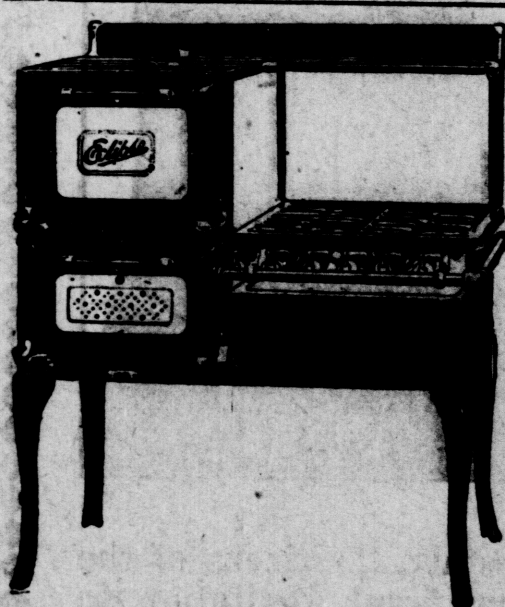

Resolved, that the Democratic County Central Committee be requested to meet at its earliest convenience to arrange for the organization of the Democracy of this county. That the chairman of the committee be instructed to call such meeting at once.

Resolved, further, that in each precinct of the county, two precinct committeemen shall be elected, one of whom shall be a woman.

In addition to the above resolutions a motion was adopted unanimously indorsing both the state and national administrations.

The Committee on Delegates nominated the following as the county's delegation to the Muskogee convention, their report being adopted. Delegates: Mesdames Jno. P. McKinley, Tom Suddath, W. H. Ebey, Ike Gilmore, J. I. Laughlin, J. W. Hattox, Dr. Burris (Maxwell), E. N. Jones, T. H. Smith, C. A. Galbraith, J. D. Crawford, Zeb McKoy, Harry Lambert, Mrs. Bean (Francis) George Busby, Marvin Brown, E. H. Snead, George Harrison, Orville Lucas, C. O. Barton, A. L. Bullock, R. C. Roland, and Miss Alice Francisco. Men: Wayne Wadlington, Joe Sloan, Marvin Brown, Russell Stokes, Robert Wimshis, I. M. King, W. W. Gaines, Andy Jones, Ben Hampton, J. D. Crawford, C. A. Galbraith, E. S. Kerr, Claud Burrell, J. W. Davis, L. M. Overton, J. H. Madlock, H. F. Mathis, Walter Coyne, Tal Crawford, Chas. Orr, Orel Busby, J. W. Bolen, R. C. Roland, E. N. Jones, J. A. Deen.

On motion of Judge Bolen the

IN A NUT SHELL

Briefly, the ECLIPSE NATURAL GAS RANGES will do a given amount of cooking with one-half the gas used by the ordinary Solid Top Natural Gas Range. This is directly due to our patented burner construction and OPEN TOP GRATES. We guarantee our ranges for five years. They bake with fresh, instead of dry, contaminated air, and make a perfect bake or roast.

names of the committee on delegates were added to the delegation. On motion of Fred Brydia the delegation was instructed to vote as a unit in the state convention.

No instructions were given the delegates on the question of presidential candidates. Like all the other Oklahoma counties Pontotoc is for Senator Owen with quite a bit of Hoover sentiment. The national committeemanship was not mentioned in the county convention.

The Strong Withstand the Winter Cold Better Than The Weak.

Old people who are feeble and younger people who are weak, will be strengthened and enabled to go through the cold weather by taking GROVE'S TASTELESS CHILL TONIC, which is simply IRON and QUININE suspended in syrup. So pleasant even children like it. You can soon feel its Strengthening, Invigorating Effect. Price 60c. adv

Notice to Property Owners and Sewer Contractors

Sealed bids will be received at the office of the City Clerk and Commissioner of Accounting and Finance of the City of Ada, Oklahoma, up to 3:00 p. m., on the 17th day of February, 1920, for the construction of sanitary sewer lines in Sewer Districts Nos. 8, 9 and 10 in the City of Ada, Oklahoma, bounded by the outside lines of the following described property:

Sewer District No. 8.
All of Blocks 7, 8, 9, 13, and 14 in Daggs Addition.

Sewer District No. 9
All of Blocks 32, 33, 34, 35, 36, 42, 43, 56, 57, 58, 59, 65, 75, 76 and 86 in original Townsite.

Sewer District No. 10
All of Blocks 2, 3, 4, 5, and 6 in Capitol Hill Addition, and all of Blocks D, E and F in Sunrise Addition.

All of the above said lots, blocks and tracts of land being within the corporate limits of the city of Ada, Pontotoc County, Oklahoma, together with the necessary lines across streets, avenues and alleys and such connections with the water mains in said city of Ada, Oklahoma, as shown by the plans prepared for such sanitary sewer districts, same being fully described and defined in Ordinance Nos. 433, 434 and 435 creating Sewer Districts Nos. 8, 9 and 10 respectively, passed by the Board of Commissioners on the 25th day of November, 1919, and approved by the Mayor and Commissioner of Public Justice and Safety, and attested by the City Clerk and Commissioner of Accounting and Finance on the 25th day of November 1919, and in the plans, profiles and specifications prepared by Johnson & Benham, Consulting Engineers, Kansas City, Mo., said plans, specifications and estimates being adopted by the Board of Commissioners and now on file in the office of the City

Clark and Commissioner of Accounting and Finance.

Bids must be made out on proposal sheets to be furnished by the City. Each bid must be accompanied by a certified check in amounts of Two Hundred Dollars (\$200.00) for Sewer District No. 8, Five Hundred Dollars (\$500.00) for Sewer District No. 9 and Five Hundred Dollars (\$500.00) for Sewer District No. 10, as a guarantee of good faith on the part of the bidder. The check of the successful bidder to be forfeited to the City as admitted liquidated damages in case of failure on the part of the bidder to enter into contract and furnish the required bonds with the ten (10) days after the acceptance of his proposal. Certified checks shall be made payable to the City Clerk of the City of Ada, Oklahoma, and to have no other endorsements or conditions thereon. Bids shall be submitted separately on each district and will separately be considered by the Board of Commissioners.

The successful bidders will be required to furnish a Statutory Lien Bond in full amount of the contract with surety to be approved by the Board of Commissioners.

Contractors will pay all accounts for material, machinery rental, and labor that may become due on account of his or their operations under this contract. Said bonds after being approved by the Board of Commissioners shall be filed with the Clerk of the District Court. The successful bidder or bidders will be required to furnish surety construction bond in approximately the full amount of the contract conditioned for the full and faithful performance by him or them of all the covenants and agreements made in his or their contract, and on the fulfillment by him of all terms and conditions of the plans and specifications.

The successful bidder or bidders will be required to furnish surety bonds in amounts of Four Hundred Dollars (\$400.00), One Thousand Dollars (\$1,000.00) and One Thousand Dollars (\$1,000.00) for Sewer Districts Nos. 8, 9 and 10 respectively, conditioned for the maintenance by him or them in good repair of all work done under the contract. Said bonds shall be dated when the contracts have been completed and accepted and shall be in force and effect for a period of six (6) months from that date.

All bids will be opened and considered by the Board of Commissioners at a meeting to be held at 3:00 p. m. on the 17th day of February, 1920, and the contract will be awarded to the lowest and best bidder, providing said bids are below the estimate of the Engineer as soon thereafter as required by the City Charter, the Board of Commissioners reserving the right to reject any and all bids and to re-advertise for bids in case none of the bids received are satisfactory.

Each bidder shall accompany his bid with a sworn statement as required by Section 1, Article IX, of the Charter of the City of Ada, Oklahoma.

All bids are required to be placed on file in the office of the City Clerk for inspection for two (2) days after opening before award or rejection of bids can be made.

Any and all parties interested are hereby notified that they may appear and protest against or object to said improvements or any part thereof or any matter or thing in relation thereto at said meeting of the Board of Commissioners on the 17th day of February, 1920, and protests must be made on each district separately.

Plans and specifications are on file in the office of the City Clerk and Commissioner of Accounting and Finance of the City of Ada, Oklahoma, and can be procured upon payment of Ten Dollars (\$10) at the office of Johnson & Benham, Consulting Engineers, 8th Floor Firestone Building, Kansas City, Mo. Upon the return in good condition of all plans and specifications a refund of Five Dollars (\$5.00) will be made.

Signed this 29th day of January, 1920.

NOTICE TO CONTRACTORS

Notice is hereby given that the City of Ada, Oklahoma, acting through its Board of Commissioners, will receive sealed bids up to 3:00 P. M. on the 17 day of February, 1920, for the construction of water works and sewer extensions, as per plans and specifications prepared by Johnson & Benham, Consulting Engineers, 8th Floor Firestone Building, Kansas City, Mo., adopted by the Board of Commissioners and now on file in the office of the City Clerk. The work will consist of the following:

SECTION A. Reinforced concrete storage reservoir, 2,000,000 gallons capacity, and pumping station. The City has contracted for all pumping machinery and electrical apparatus for the pumping station. The Contractor will build foundations for machinery in connection with this work.

SECTION B. Housing over Byrd's Mill Spring, levee and protection work for present reinforced concrete penstock and tailrace.

SECTION C. Laying of system of distributing water mains in the City, taking up and lowering of certain water mains, supply line connecting present steel supply line to proposed reservoir, force line from proposed reservoir to connection with city mains, setting of valves, hydrants, etc. The City has purchased all cast iron pipe, fittings, hydrants, valves and valve boxes and Contractor will bid for installation only.

SECTION D. Main and sanitary outfall sewers and storm sewers.

SECTION E. Sewage disposal plant complete, including luff tank, sludge and contact beds.

SECTION F. Unloading, hauling and distributing cast iron pipe, fittings, hydrants, valves, valve boxes, etc.

Each bid shall be accompanied by a certified check or satisfactory Bidder's Bond in the amount of ten percent (10 percent) of the total bid, made payable to the City of Ada, Oklahoma, as an evidence of good faith, to insure the signing of the contract and the filing of the Construction and Statutory Bonds.

Each bidder shall accompany his bid with a sworn statement in writing, as required in Section 1, Article IX, of the Charter of the City of Ada, Oklahoma.

The successful bidder or bidders will be required to furnish Construction, Statutory and Maintenance Bonds as required in the specifications.

Bids received as aforesaid will be opened and considered by the Board of Commissioners on the date here-tofore set out and all bids will remain on file for inspection for forty-eight (48) hours after opening before the award or rejection of same will be made.

All work will be paid for in cash on partial monthly estimates as the work progresses, out of funds from the sale of bonds heretofore voted, which funds are now available.

Plans and specifications can be examined in the office of the City Clerk in the City of Ada, Oklahoma, and may be procured upon the payment at the office of Johnson & Benham, Consulting Engineers, 8th Floor Firestone Building, Kansas City, Mo., of Ten Dollars (\$10.00) each for Sections A and C and Five Dollars (\$5.00) each for Sections B, D and E. Upon the return in good condition of all plans and specifications, a refund of fifty percent (50 percent) of the charge will be made.

The Board of Commissioners reserves the right to reject any and all bids.

Dated this 29 day of January, 1920.

W. B. JONES,
City Clerk & Commissioner of Accounting and Finance

If you have business out of town

Every little while, you haven't any business buying an O'coat that won't look well a long time.

Of course, when you are home here, we all know you are a solid citizen and a stock holder at the Oklahoma State Bank but in other climes your assets are judged by appearance.

This isn't any argument why you shouldn't have a splendid big coat to wear around home—but it is a first rate reason why you should look the part when you travel.

CHRISTIAN CHURCH ENDEAVOR MOVEMENT

(Digest of sermon yesterday morning at the Christian Church, C. V. Dunn, Minister.)

The Christian Endeavor Society is the youngest, but one of the most important children of the church. This society was born in Portland, Maine, February 2, 1881. The minister of a Congregational church in that city saw that the young men and women were not being properly trained for Christian service, so he organized a Christian Endeavor Society out of the young people of his church. Its purpose, therefore, is to train young men and women who are members of the church for service to Christ.

At the present time there are about 80,000 societies, with a membership of nearly 5,000,000. The society is organized in eighty religious bodies. It is active in six continents, North America, South America, Asia, Europe, Africa and Australia. Its official organ is the "Christian Endeavor World."

The Endeavor Society is a training camp for the church. This training is as necessary to efficient Christian service as military training is to efficiency on the battlefield. Again, an Endeavorer serves a kind of apprenticeship before entering upon the full profession of Christianity, as a person enters upon an apprenticeship to enter some profession in life. The Bible School puts tools in the hand of the Christian, but the Endeavor Society trains him how to use them.

The Endeavor Society has done a great deal to further the cause for which the church stands. It has increased the reading of the Bible; it has increased the spirit of prayer; it has increased the spirit of consecration; it has advanced the cause of union among the people of God. It has done this by using the universal and Scriptural name, "Christian," and by meeting together in great conventions where unscriptural practices and doctrines are unknown; it has helped to give the church a broader vision of Christian service by advocating Christian missions, and by training its members to stand four-square on great social and moral problems.

A few years ago in the World Convention which was held in Chicago, the Endeavor Society launched two great slogans: "A saloonless nation by 1920," and "A saloonless world by 1930." The first of these hopes has become a reality. There is good reason for believing that the second will.

It has established certain worthy standards: 1,000,000 new members for our societies; 1,000,000 new converts uniting with the church; 1,000,000 new dollars for missions; 10,000 new societies of Christian Endeavor, and 20,000 new members of the Quiet Hour.

Christian Endeavor stands for definite standards of service; for a definite commitment to those standards; for open confession of Christ; for speaking for him according to ability and opportunity; for cultivation of the devotional life by regular prayer and Bible study; for training in Christian service; for loyalty to the church; for regular attendance on the services of the church; for generous giving to the services of the church; for Christian citizenship; for promotion of peace and good will among the nations of the earth.

It works in twenty-three state penitentiaries and prisons; on the Atlantic and Pacific coast and on the Great Lakes, it works among the sailors, writing letters, keeping in touch with homes, supplying comfort bags, furnishing Testaments, etc. One Christmas they sent 30,000 letters to the cheer of sailors; there are several Christian Endeavor Societies in our deaf and dumb asylums; Christian Endeavor was organized in our standing army before the war; the Societies on our battlefields are known as "Floating Christian Endeavor Societies." There was one on the battleship Maine and one on Dewey's flagship "Olympia." Certainly a Society that has done and is doing such big things and is planning to do yet larger things is worthy the encouragement and support of the church.

Ada Is in for a Rare Treat Next Thursday Night

To live in a city and have the advantages of the good things that come to a city is one thing; to live in a small place and have the same advantages is another thing.

Ada is fortunate in having brought to her door entertainments that specifically belong to the larger cities. This is due, in the main, to the fact that one of the big educational institutions of the state is located here—a thing that our people too often overlook—and to the further fact that the people of Ada are far above the average in intelligence and literary inclination.

Coming next Thursday night is Oscar Seagle, baritone, and a man who will give us a musical treat which will well be worth the time and money, and every person in the city who is interested in good music will not miss this opportunity.

"Oscar Seagle rises head and shoulders above the crowd of concert aspirants." This is the verdict of Henry E. Krehbiel, dean of the American critics. It is a verdict attested to by the judgment of a hundred other experts and thousands of music-lovers.

The reasons therefore are easily discovered. Upon a voice of great natural beauty Seagle has superimposed a command of technical facility, a breadth of emotional power, a wealth of vocal color, a clarity of diction, in short a perfection of utterance that for its counterpart we must go to the great singers of the golden age of bel canto.

His versatility is amazing. He does all kinds of songs equally well. His twelve years of training under the great Jean de Reszke have given him a mastery of the French song, both ancient and modern, and a keen insight into the delivery of operatic arias; his coaching with Von Zurem, the renowned master, a rare knowledge of German lieder. His English songs spring from the heart and manifest a rich fund of emotional power.

In one field at least, he is unique as well as great. No other singer has ever given us such interpretations of the negro spirituals as well as the popular songs of the South. Born and raised in the South, he has deep sympathy and comprehensive understanding of the spirit that sets the South apart in the fervor of its emotional life, and because of this sympathy and understanding and the additional fullness of his own art, he has been enabled to deliver for the first time, the true message of his native land. Indeed he is the musical prophet of the South.

To hear Seagle sing a negro spiritual is to enter deeply into the romance, the passion, the joy of living that distinguishes the Southland.

America's first cotton exportation was made in 1778. It consisted of one bag of cotton consigned from Charleston, S. C. to London, England.

COL. ROOSEVELT'S LONGEST LETTER

HIS BIOGRAPHER DESCRIBES IT IN SCRIBNER'S AS HUMAN DOCUMENT OF EXCEPTIONAL CHARACTER

By the Associated Press

NEW YORK, Feb. 2.—Colonel Roosevelt's "longest letter," a 25,000-word personal account of his trip from Khartoum to London in 1909 and which is described by his biographer, Joseph Bucklin Bishop, as a "human document of exceptional character," appears as the first of two installments in the February issue of Scribner's Magazine published today.

"Soon after retiring from the Presidency," explains Mr. Bishop, "the Colonel went to Africa on a hunting trip. He had arranged before his departure for several formal addresses, which he was to make in Germany, England, France and Norway on his return. When he reached Khartoum in March 1910 on his way home, yielded to urgent appeals and made two addresses on Egyptian affairs, one at Khartoum and the other at Cairo, which aroused much controversy and led later to a speech on the same subject, also by urgent request, at the Guildhall in London.

"From Khartoum he went to Rome, Vienna, Budapest, Paris, Brussels, the Hague, Copenhagen, Christiania, Stockholm, Berlin and thence to London. At the close of his tour he paid a long visit to his long time correspondent and friend Sir George Otto Trevelyan, at the latter's estate at Wellesbourne, Stratford-on-Avon. During the visit his narrative of his experiences in Egypt and Europe so strongly impressed Sir George that he urged him most earnestly to put it in writing. This Roosevelt did the following year, in the form of a letter to Trevelyan, under date of October 1, 1911."

The former President, in the massive, made "frank and searching comments upon the characteristics and personalities of kings, emperors and other eminent personages with whom he came in contact; and in the opening paragraph requested that it should not be made public 'until long after all of us who are now alive are dead.' Trevelyan, in authorizing its publication," said: "I do not hesitate to say that it should be published and the sooner the better. The world would be much the richer for it. The times are such that the human interest and solid value of this wonderful paper would be very great indeed now."

The Colonel drew an intimate picture of British rule in Egypt, praised it on the whole and declared that the task of "super-imposing the twentieth century upon the seventh" was a mighty one "which only a great and powerful nation could attempt and which it is a high and honorable thing to have attempted." Nearly 3,000 words are devoted to "The Vatican Incident" and the reason Roosevelt was not presented to Pope Pius X. A certain Methodist clergyman in Rome had been conducting at attack upon the head of the Catholic church and when Vice President Fairbanks, sometime before, visited the Holy City the Supreme Pontiff stipulated that he would not receive him in audience if he addressed Methodist gatherings. Roosevelt took the same attitude as Fairbanks, that he "must decline to submit to any conditions which in any way limit my freedom of conduct."

The Colonel said in his letter to Sir George that one of his volunteer secretaries at that time was "anxious to prevent the Vatican from committing what he felt would be a great blunder" and while the Colonel was at Naples went to Rome to see the then Papal Secretary of State, Cardinal Merry del Val. The stipulation by the Pope was not withdrawn and Colonel Roosevelt adhered to his resolution of making no agreement to refrain from speaking before Methodist meetings. "Accordingly," he wrote, "I was not presented at the Vatican."

In a public statement at the time the Colonel declared that "the respect and regard of those of my fellow Americans who are Catholics are as dear to me as the respect and regard of those who are Protestants," and he expressed the hope that the incident would be treated as a merely personal matter without rancor or bitterness.

While in Rome the Colonel visited King Victor Emmanuel and Queen Helena of Italy whom he described as "faithful, conscientious and wise" as well as a loveable couple. Later he saw in Vienna the aged Franz Josef, Emperor of Austria, who said he was "the last representative of the old system, whereas I embodied the new movement."

"I shall always bear testimony to the good manners, and the obvious sense of responsibility and duty, of the various sovereigns," the Colonel wrote. "I thoroughly liked and respected almost all the various kings and queens I met; they struck me as serious people, with charming manners, devoted to their people and anxious to justify their own positions by the way they did their duty."

Teacher Training Class
The Teacher Training Class will meet at the Christian Church this evening at 7:30. It is hoped that every member will be present, as the class will have a complete review of the Sunday School up to the present time. This review is in preparation for the list next Monday evening.—C. V. Dunn, instructor.

THIS VOLCANO BIGGEST SINCE THE YEAR 1868

By the Associated Press

HILO, ISLAND OF HAWAII, Feb. 1.—Kilauea Volcano, which during the closing months of 1919 produced an eruption surpassing anything of its kind in recent years, opened 1920 with another magnificent spectacle which had not been paralleled since 1868.

On December 22, lava from Kilauea forced its way up through the floor of the Kau desert, six miles distant from the firepit of the crater, and by New Year's Day observers were watching a flow of molten lava, six miles long and 100 yards wide, traveling southward through the forest of ohia trees at a rate of three miles per day. An inner channel of the flow was making as high speed as 12 miles an

hours at the source, and welling from springs twelve feet across.

As the molten lava cut into the forest the trees were set afire, many of them being quickly burned through at their bases and carried along upright in the flow like ranks of giant torches.

The location of Kilauea's most recent outbreak is along the rift line of 1868, left by the terrific earthquakes which rocked the island of Hawaii in that year. The rift, clearly defined, runs from the southern rim of Halemaumau, the "house of fire," or firepit of Kilauea, through the south wall of the main crater and thence to the sea, twenty miles away in a series of wide, parallel crevasses. The new flow, however, has not made its appearance along the rift at a point closer to the firepit than six miles, where it has welled up through thickly lava-coated desert floor of Kau.

From the rift line many molten fountains could be seen spouting

thirty feet in the air. Heavy fumes were emanating from the earth along the entire line of the rift.

Kilauea's latest outbreak is the culmination of a long period of tremendous activity, caused, say the volcano observers, by underground pressure of lava which was not relieved by the recent discharges from the crater proper.

As the desert flow increased, the lava level in Halemaumau continued to sink, until volcanologists prophesied that the pit might be drained.

Attention, Masses.
Regular meeting of the Ada Lodge A. F. & A. M., No. 119, this evening at 7:30. A full attendance is requested, as there is important business.—R. H. Gladwill, W. M.

Portugal is the most illiterate country in Europe—more than 60 per cent of its population cannot write.

The first fire engine used in the United States was brought from England to New York in 1731.

Springtime's Creations

From the Best Sources of Style and Fashion we are showing an assortment of—

New Coats

Short coats will appeal to the younger folks. We are showing them in diversity of styles, and while many have smart leather belts, there are also many made of narrow belts of self materials, and nicely turned lapels.

New Suits

Tricotine, Twills, and Serges are the favored materials—Navy the ever popular color. There is a dash, and a "different note" about our suits that commands instant admiration.

See the new materials.

Different, charming, attractive in every particular. Many new style touches. Some of the suits are "smart" in their short ripple coat effects, others are "smart" with the straight lines and plain tailoring. The skirts are fuller, and a trifle shorter.

We invite you to pay our garment section an extended visit.

Millinery fashions for the coming season can be judged by the famous—
'GAGE HATS'

STEVENS-WILSON CO.
